

Offering You Innovative

Water Softening and Filtration Solutions

Water plays an important role in our daily lives, both in our homes and the businesses we frequent. Roughly 85 percent of people in North America live in hard water areas. Unfortunately, many in that 85 percent don't take action to improve their water.

Do you experience these problems?

- Stains that are difficult to remove
- Tiles and tubs won't rinse clean
- Spotty dishes or cloudy glasses
- Skin feels dry and itchy
- Hair is dull or lifeless
- Faucets and fixtures are covered in a white crust
- Water heater runs inefficiently

- Pipes become clogged
- Water-using appliances run inefficiently
- Low water pressure from shower and sinks
- Clothing looks dingy and yellowed
- Soap doesn't lather
- Towels are scratchy and hard

Who is North Star?

North Star Water is here to help you grow your business. Our dedicated program, along with North Star's 95-year history of quality, gives you the winning tools and products to transform your water treatment solution. Customers will see the difference with North Star's proprietary algorithms that save on water and salt costs, maximum efficiency with up-flow brining, and lasting quality with an exclusive rotary valve.

North Star products are also NSF Certified, which ensures maximum quality and efficiency.

With North Star, you have the opportunity to become a partner in the future of water treatment that is backed by **BERKSHIRE HATHAWAY**.

With innovative water treatment solutions for every application, North Star is the professional's choice.

Water Softening

Choose from our NSF Certified Professional Collection of cabinet and two-tank softening systems that boast advanced high-efficiency technology, pro-grade materials, and the high flow rates required by today's demanding households.
