PROVIDING OUR CUSTOMERS
WITH A 5-STAR EXPERIENCE

Introducing the Future of Home Water Management

The North Star 2-in-1 Softener + Whole Home Filtration System allows homeowners to manage their water from anywhere, any time. The softener uses Wi-Fi technology and connects to the iQua™ Water Management App in four easy steps. Plus, activated carbon filters the water throughout the entire home, saving homeowners hundreds of dollars in filter replacement costs.

A Smarter Way to Manage Your Water

The iQua™ Water Management App provides homeowners with critical information and alerts such as water usage, low salt, and continuous water flow.

Additional protection and peace of mind are available with the North Star Motorized Water Shut-Off Valve. When paired with the Wi-Fi-connected, 2-in-1 system, the homeowner can remotely respond to continuous water flow alerts and turn off their water via the iQua™ app.

The iQua™ Water Management App is consumer-friendly, allowing the homeowner to connect their softener to Wi-Fi quickly.

2-in-1 Softener + Whole Home Filtration With Wi-Fi

- High-capacity 2-in-1 system softens & filters water

- System uses Wi-Fi technology & the iQua™ App to send water alerts to your smartphone

- Optional Water Shut-off Valve allows the homeowner to turn off their water remotely via iQua™ App

- Reduces sediment and chlorine using carbon filtration

- No filters to replace

- AutoSense™ Technology provides salt & water savings

- Ultra high-flow valve for optimal water pressure

- Ideal for any-sized household

- Installation Kit: this system comes with fittings needed for a simple installation.

- Can be used with city or well water sources

Grow Your Business with a Premium Connected Product

Innovative Whole Home Offering

- First Wi-Fi connected 2-in-1 Softener + Whole Home Filtration System on the market
- Diversify your product portfolio, add value for homeowners
- Meet consumer expectations for connected products
- Whole Home solution = less installation time and fewer products to manage

Direct Homeowner Support

- 4-step iQua Quick Start Guide for easy Wi-Fi set up
- Quickstart Video walks the homeowner through the connection process
- Homeowner support/knowledge base on www.northstarwater.com

Best-in-Class Warranty

- **1 year** on all parts
- **5 year** on electronics and valves
- **10 year** on tanks

We're Here to Support You

- Experienced technical support team provides application, installation, and service assistance
- Comprehensive training program provides both hands-on and best-in-class digital learning
- Manufacturer-based sales and business development team works with you to maximize your water treatment potential

NSCWHC

Part Number	NSCWHC3
Household Size	1-6+
Max. Capacity (grains)	31,100
Resin	.98 cu ft
Activated Carbon	Yes
Standard Connection Size	1" NPT
Valve	1" valve; up to 1 1/4" plumbing
Connection Size	1" male pipe thread
Rated Service Flow Rate	8 gpm
Intermittent Flow Rate @ 30 psi drop	17.8 gpm
Clear Water Iron Reduction	3 ppm
Electronic Demand	Yes
Dimensions	H 48" X W 15" X D 20 ½"
NSF Certification (NSF/ANSI standard)	42, 44 including barium/radium & 372

Certified to the Highest Standards

- Water Quality Association Gold Seal
- Canadian Standards Association
- FCC Standards IC3590A-7695 compliant
- NSF International against NSF/ANSI Standard 44 for hardness reduction and efficiency, barium and radium reduction and low lead content.
- Designed, Engineered & Assembled in the U.S.A.

Backed by More Than 95 Years in Water Treatment

With two U.S. manufacturing facilities, North Star has been solving water quality concerns since to 1925.
